neurotransmitters
choline derivatives
acetylcholine
drugs
nicotine, curare
diseases
Alzheimer's disease
tetanus
botulism
biogenic amines
catecholamines
dopamine
drugs
wellbutrin (bupropion)
MAOI
diseases
Parkinson's disease
schizophrenia
depression
norepinephrine
drugs
wellbutrin (bupropion)
MAOI
diseases
depression
epinephrine
histamine
serotonin
drugs
SSRIs
MDMA
LSD, DMT, psylocibin
diseases
depression
anxiety
amino acids
excitatory
glutamate
PCP
aspartate
inhibitory
GABA
benzodiazepenes
valium, xanax, clonipin
alcohol
zolpidem (ambien)
glycine
neuropeptides
opiods
endorphins
enkephalins
drugs: opiates
morphine, codeine, oxycontin, lortab, percocet
heroin
other molecules
nitric oxide
(endo)cannabinoids
drugs: THC/marijuana, spice; chocolate
purines
ATP, ADP, adenosine
drugs: caffeine
